ABOUT US

We are Dubai based organization for information technology products and services. We engage businesses of all sizes and industries in technology consulting, partner them for sourcing and delivering of technology projects and actively participate in their business excellence journey...

Established in 2013, Holistic Business Technologies is now one of the leading Business Technology Solution Provider in the region. Head-quartered in Bur-Dubai, our vision is to bring benchmarks in technology used for business.

HOLISTIC provides Business Consulting and Technology Solutions to streamline business processes, thereby increasing productivity and improving competitive advantage with minimum cost.

Rather than providing the technology of usual practice, we consult the customer business and help them to achieve the best practice.

Business Software, Information Security and IT infrastructure being our major field of focus, we've always been the reliable technology partner for many businesses.

“

We can't lead the future with tools from the past, and we can't accomplish quantum leaps in growth without conceptualizing a new way...

Change creates great opportunities and renews ideas and forces everyone to think in a different way. And we will implement all that is good for our people.

”

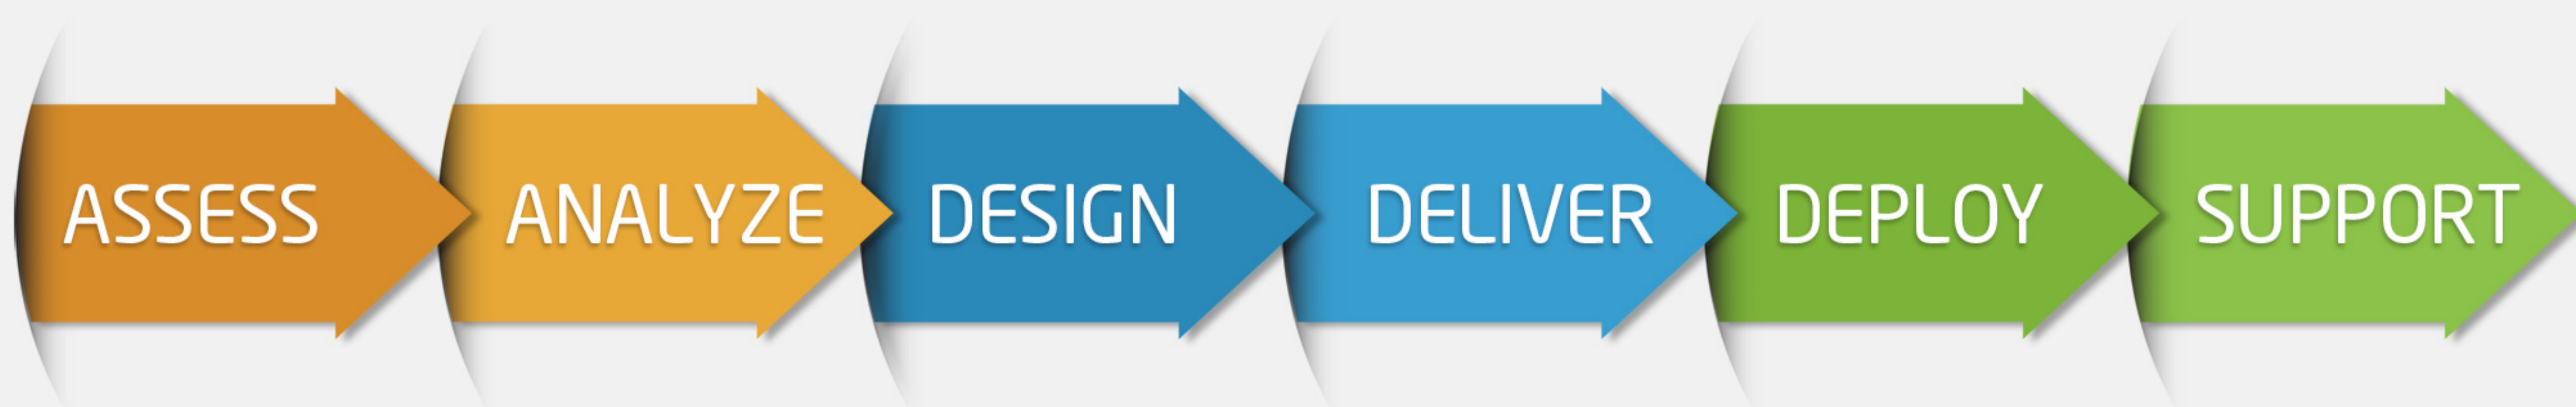

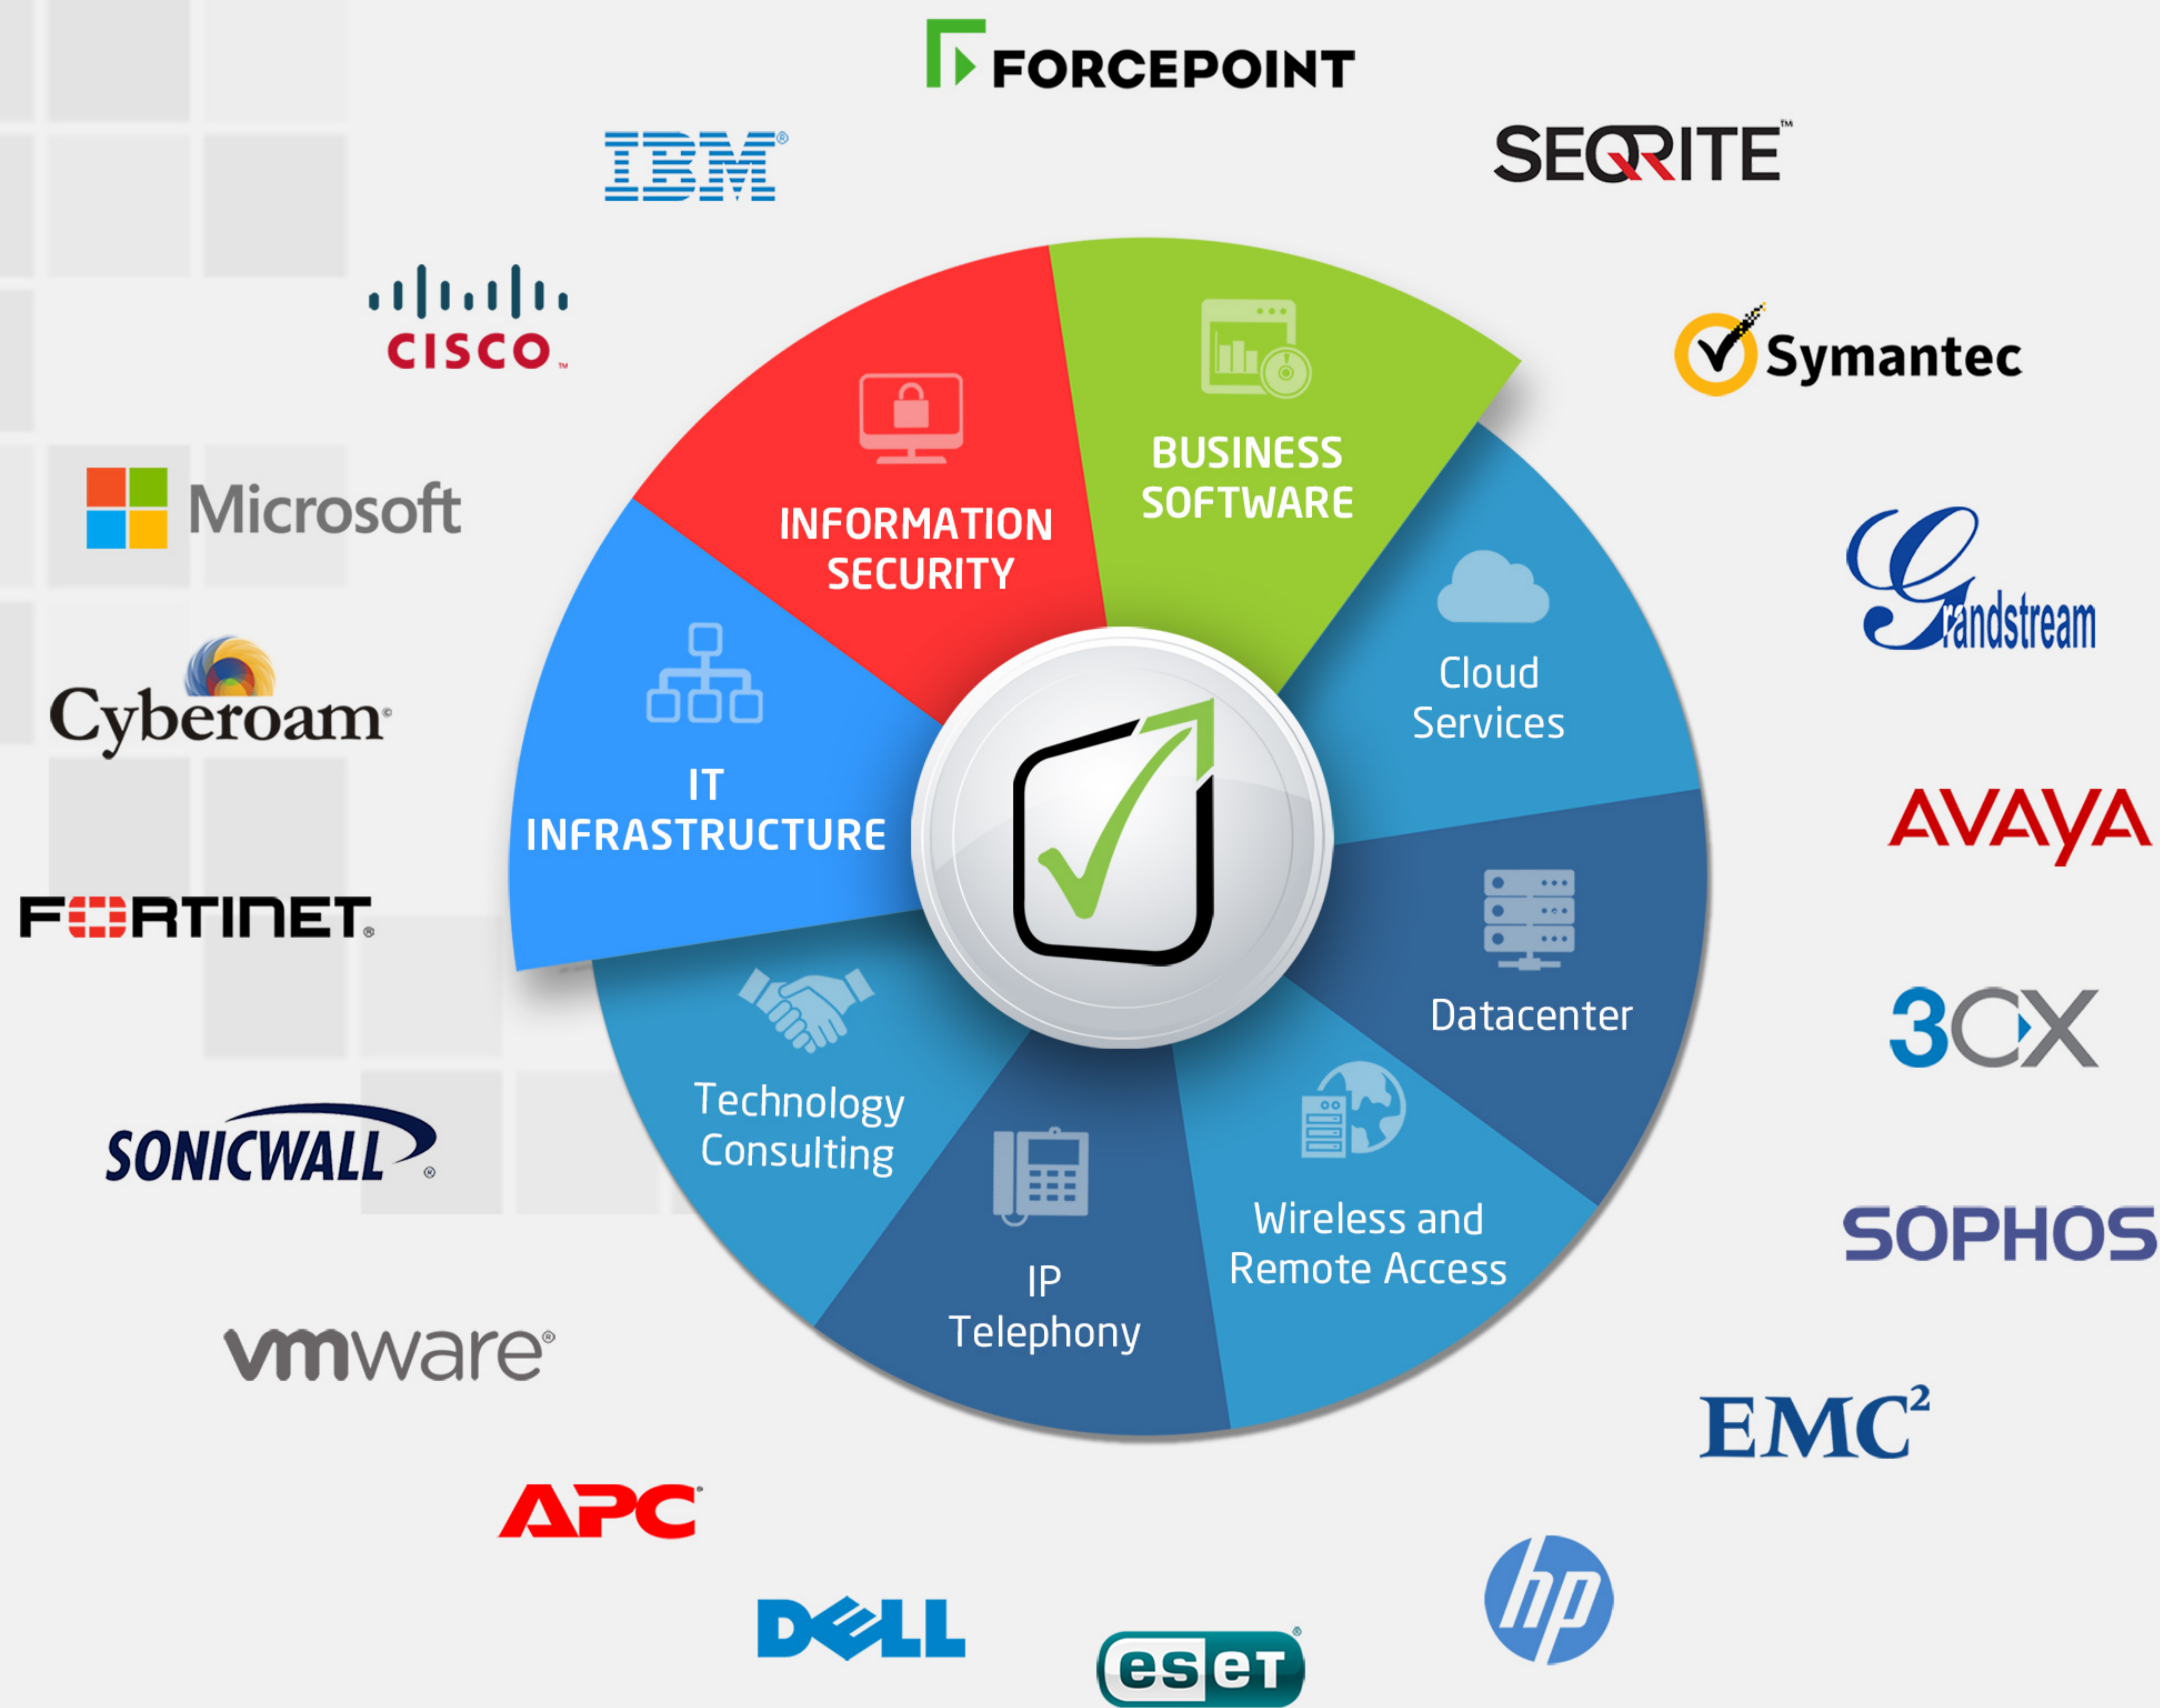

H. H. Sheikh Mohammed bin Rashid Al Maktoum
